assembly building (Figure 2). Each canister was approximately			2
meters in diameter	r and appeared to have two light-t	oned bands, one near each end. The	
location of these ca	anisters near the MIRV-associated	payload assembly building and their	
size suggest that	they are possibly for the fully ass	sembled SS-20 MIRV payload. The	^
canisters were not present when the facility was imaged on			2
and this area	has not been seen on clear imagery	since	2
Mos	zyr is in Belorussia and is subord	inate to the Mozyr Division of the	2
